## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-9, 11, 14-18, 20-23, and 26-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Miyata et al.

The Miyata reference discloses a valve assembly comprising a valve body 201, a valve element 200, a housing 202, an RVDT sensor (11-19), a shaft comprising an interface shaft (smaller diameter portion of shaft 203) and an output shaft (larger diameter portion of shaft 203), a stepper motor 207, a connector assembly/conductors (see conductors on motor assembly 207 in Figure 20), and a shaft bearing assembly (see bearing assemblies shown in Figure 19).

### ***Allowable Subject Matter***

Claims 2, 3, 10, 12, 13, 19, 24, 25, and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
